PRICED VOCABULARY

OF

MEDICAL STORES

(INDIA)

1942

SECTION 21 - ANTI-MALARIAL EQUIPMENT.

INDEX.

Instructions for the Vocabulary of Medical Stores, (India)

1. **Vocabulary — No authority for demand.** This vocabulary is no authority for the demand or issue of stores.

2. **Stores included** — All stores, whether obtained in India or imported and which are current equipment of the Army in India are included in this edition. In the case of obsolescent stores, reference should be made to previous editions and supplies will be made if they are available in stock.

3 **Arrangement** — Stores of the same general character or used for the same general purpose are arranged together in the same section in alphabetical order. The components of main items are shown in appendices attached to the various sections, and bear component numbers as well as index numbers.

4. **Detail** — Detail of a useful character has been inserted to facilitate identification and verification of the use of stores, but information which is to be found in Equipment or other Regulations is not included. When the service for which the articles are required is given, this does not necessarily preclude their use for other purposes for which they may be suitable

5 The vocabulary specifies the accounting unit which should be adhered to in the demands of the units etc.

6. All dry articles and of fluid drugs, Acid Hydrochloric, Acid Nitric, Acid Sulphuric, Carbon Tetrachloride, Chloroform, Glycerine, Glucose, and Canada Balsam will be issued both in bulk and in retail by weight. All other fluid articles will be issued (a) *if in retail* by measure and (b) if *in bulk* by weight or measure in original containers according as they are received in the Depot by weight or measure

By weight 1 lb will be taken as equal to 7,000 grains by avoirdupois weight. By measure 1 gallon will be taken as equal to 10 lbs. or 160 ounces and 1 ounce as equal to 8 drachms.

Gold articles are issued in Troy weight.

7 **When submitting indents on Medical Store Depots** — Military institutions will be guided by the Regulations for the Equipment of the Army (India).

Civil institutions may indent for any article in the Vocabulary with the exception ordinarily of Field Medical and Field Veterinary Equipment. Such equipment may be issued to civil institutions if stocks in Medical Store Depots permit.

8 **When preparing indents** much trouble will be avoided if the following rules are carefully observed :—

(a) Nomenclature in the vocabulary should be adhered to strictly.
(b) Each item should be prefixed by its index number.
(c) In an indent, articles from different sections should be separated and not mixed together. Under each section articles should be arranged in the order in which they appear in the P.V.M.S

9. **When preparing vouchers** for articles to be returned to Medical Store Depots the rules under para 8 above should be followed.

Civil institutions are not allowed to return stores to the Medical Store Depots without the prior concurrence of the D.A.D.G. (Medical Stores).

10. Civil institutions should use only civil indent forms which can be obtained from the D.A.D.G. (Medical Stores) of the Medical Store Depot in the circle of supply in which an institution is situated.

There are three civil indent forms for Medical Stores —
These are :—

1. Annual Indent form (M.S.D. 134) for large institutions.
2. Annual Indent form (M.S.D. 135) for small institutions.
3. Supplementary Indent form (M.S.D. 136).

11. When the exact item indented for is not in stock, Medical Store Depots will supply any equivalent item (as indicated in the equivalent column of the P.V.M.S.) if such items are available. Substitutes will be supplied to the civil indentors only when they agree to accept the same.

12. *The rates shown in this vocabulary include a percentage to cover departmental* expenses and customs duty on imported articles and will be the basis of charges for medical stores issued on repayment, lost, damaged or destroyed by neglect.

In charging for issues on repayment the following additions will be made to the value at Vocabulary rates the stores issued :—

Government and Mission Hospitals and Imperial Service Troops and Indian States Forces	Cost of special packing materials and transit charges.
Burma	5 % plus cost of packing cases, bottles etc., and transit charges.
Others (excluding local bodies institutions)	10 % plus cost of packing cases, bottles, etc. and transit charges.

Excise duty in case of excisable articles will be recovered in addition to the rates shown in the vocabulary from those institutions which have not been exempted by their local Governments.

13. **Second hand articles** will be supplied to civil institutions and on repayment indents at 75 % of the rate shown in the vocabulary, if asked for and if available in stock.

14. Rates for stores not shown in the vocabulary should not be taken from previous editions but, if required, should be obtained from the Controller of Military Accounts concerned who will, if necessary, obtain the correct rates from the Deputy Financial Adviser (0) Military Finance. The rates for N.I.V. items will be worked out by the Accounts Sections attached to the Depots, but reported to the Deputy Financial Adviser (0), for confirmation.

15. Copies of the P.V.M.S. may be obtained from the D.A.D.G. (Medical Stores), Medical Store Depot, Madras, Bombay, Calcutta and Lahore Cantt. from whom the medical supplies are indented for.

Instructions for the Vocabulary of Medical Stores, (India)

1. **Vocabulary — No authority for demand.** This vocabulary is no authority for the demand or issue of stores.

2. **Stores included** — All stores, whether obtained in India or imported and which are current equipment of the Army in India are included in this edition. In the case of obsolescent stores, reference should be made to previous editions and supplies will be made if they are available in stock.

3 **Arrangement** — Stores of the same general character or used for the same general purpose are arranged together in the same section in alphabetical order. The components of main items are shown in appendices attached to the various sections, and bear component numbers as well as index numbers.

4. **Detail** — Detail of a useful character has been inserted to facilitate identification and verification of the use of stores, but information which is to be found in Equipment or other Regulations is not included When the service for which the articles are required is given, this does not necessarily preclude their use for other purposes for which they may be suitable

5 The vocabulary specifies the accounting unit which should be adhered to in the demands of the units etc.

6 All dry articles and of fluid drugs, Acid Hydrochloric, Acid Nitric, Acid Sulphuric, Carbon Tetrachloride, Chloroform, Glycerine, Glucose, and Canada Balsam will be issued both in bulk and in retail by weight All other fluid articles will be issued (a) *if in retail* by measure and (b) if *in bulk* by weight or measure in original containers according as they are received in the Depot by weight or measure.

By weight 1 lb will be taken as equal to 7,000 grains by avoirdupois weight By measure 1 gallon will be taken as equal to 10 lbs. or 160 ounces and 1 ounce as equal to 8 drachms

Gold articles are issued in Troy weight.

7 **When submitting indents on Medical Store Depots** — Military institutions will be guided by the Regulations for the Equipment of the Army (India).

Civil institutions may indent for any article in the Vocabulary with the exception ordinarily of Field Medical and Field Veterinary Equipment. Such equipment may be issued to civil institutions if stocks in Medical Store Depots permit.
